VCE

VOCATIONAL

MAJOR

SPECIALISTS

VET in the VCE Vocational Major

VCE VM and VET Rules

- The VCE Vocational Major is sequential and completed over a minimum of two years
- 16 units are required for satisfactory completion and 180 hours of VET at Certificate II level or above is the minimum requirement (over the two years)
- The Victorian Pathways Certificate does not require any VET hours for completion

Can I substitute a VET to replace WRS or PDS or replace the curriculum in these subjects?

- No, the detailed unit and curriculum changes make this impossible and the new VCAA rules do not allow this
- Schools may have previously used a Certificate II in Business or a Certificate II in Creative Industries to supplement WRS or PDS
- This cannot be done from 2023

Does my school need to offer more VET subjects?

- Yes and no as this is a school decision
- Schools will no doubt have more students enrolling in the VCE Vocational Major (as it is the VCE non-scored pathway) however they do not necessarily need to offer more VET subjects

Do teachers need a TAE to teach VCE Vocational Major?

- No, anyone can teach this subject and a Cert IV TAE 40116 is required for VET subjects only
- No TAE40116 required with eduClick
